All prints are printed on lightweight sheets of aluminum for the fullest, richest experience. Printed on aluminum instead of paper, the photographs contain a richness and

depth that prints on photo papers simply cannot match. Nighttime photos particularly shine as metal prints. The shadows remain deep and rich, and the highlights pop. Aluminum

prints are lightweight and come ready to hang. Below are a couple different hanging and framing options.

Float Hangars

Float Hangars are the economical way to hang your photographs. These come on the back of the print and are equipped with saw teeth for hanging, and rubber feet at each corner. They keep your image about 1/2 inch from the wall.

Float Hangar Pricing

Prices include shipping to you. If you are purchasing in California, prices include sales tax. Subtract \$5-\$10 if you want no hangar (size-dependent).

8X10	\$75	16x20	\$150
8x12	\$80	16x24	\$170
11x14	\$105	20x20	\$175
12x12	\$110	20x24	\$185
12x18	\$130	24x24	\$220
16x16	\$125		

Float Hangars

Float Frames

A frame makes an image stronger. With a Float Frame, your metal print floats within a slim, sleek frame, mounted with about 1/4 inch of space between your photograph and the frame itself. Frames can be White or Black, and will be Black if not specified (which I think looks best).

Float Frame Pricing

Prices include shipping to you. If you are purchasing in California, prices include sales tax.

8X10	\$150.00	16x20	\$280.00
8x12	\$155.00	16x24	\$290.00
11x14	\$195.00	20x20	\$295.00
12x18	\$225.00	20x24	\$320.00
16x16	\$220.00		

Float Frame

Odd-Sized Images

Panoramas and some other images of mine are not standard shapes, and their prices will vary depending on the size you would like. For those, tell me what you want, and we'll work out the price.
